**AIS SIG AND ANCILLARY GROUP MEETINGS**

*Registration for AIS SIG Meetings may not require current membership in AIS and the SIG.*

Selecting a workshop that is an AIS SIG activity may not require current membership status in that SIG as of the date of the workshop. Note: Due to registration system limitations, SIG membership and registration is NOT bundled together. That means that if you are not an AIS SIG member or your current membership expires before December 1, 2009, you must go the regular AIS membership site and renew or complete a new membership application ([www.aisnet.org](http://www.aisnet.org)). All memberships will be verified prior to the start of the conference. Registration credentials will only be provided to those with a confirmed AIS SIG membership. This does not apply to corporate participants.

**PLEASE NOTE: Registration for the conference, plus all AIS SIG and ancillary meetings, is being handled by a single registration process. A separate registration fee applies for the conference and for each AIS SIG and ancillary meeting for which you register, but you can register for all events on a single registration form.**

<p><b>SIG SVC</b>  <b>Date: Monday, December 14, 1:00 pm – 5:00 pm</b>  According to Gather, worldwide end-user spending on IT services will grow at a 6.4% compound annual growth rate through 2010 to reach US\$855.6 billion, with positive growth in nearly all market segments. Service-oriented thinking is one of the fastest growing paradigms in IT and IS. It is paradigm that reinforces the value of distributed processes, services, commoditization, reuse, information, coordination, and it offers benefits such as end-to-end enterprise connectivity by removing redundancies, generating unified collaboration tools, and streamlining IT processes<sup>1</sup>. There is a need to apply robust research findings in the appropriate management and organizational contexts related to services innovation, design, quality, architecture, delivery, execution, and the resulting customer satisfaction and business value. The goal of this workshop is to explore the challenges, issues and opportunities related to the IT Service Management (ITSM), Service Oriented Information Technology, Systems and Management, and Service Sciences Management and Engineering (SSME). The International Community is invited to contribute research papers, panel presentations and industry abstracts.</p>	<b>Early Registration</b> <input type="checkbox"/> \$50.00 Academic <input type="checkbox"/> \$25.00 Student <input type="checkbox"/> \$55.00 Guest <b>Regular Registration</b> <input type="checkbox"/> \$50.00 Academic <input type="checkbox"/> \$25.00 Student <input type="checkbox"/> \$55.00 Guest <b>Onsite Registration</b> <input type="checkbox"/> \$50.00 Academic <input type="checkbox"/> \$25.00 Student <input type="checkbox"/> \$55.00 Guest
